DIRECTIONS: Tell the child that you will say three words and that two of the words will rhyme and one will not. Read each set. After you read each set of words, have the child repeat them. Then have him/her identify the word that does not rhyme. Place an X next to a set of words if he/she does not correctly identify the word that does not rhyme. Practice using the first set of words.

PRACTICE: Say: *I am going to say three words and listen for two words that rhyme. I will name the word that does not rhyme.* Read: *sat, bat, ran.* Say: *Sat and bat rhyme. Ran does not.* Now it is your turn to name the word that does not rhyme. Read the next set of words.
